

NEW-YORK DAILY TRIBUNE, MONDAY, JANUARY 10, 1853.

8

for the leading fancies and an upward movement in prices. Erie closed at \$24,000 with no pressure of stock on the market. Harlem is firm at 73 1/4; Reading is not stiff and sold at \$84 for the opening; Long Island is steady. The receipts in December were.....
\$15,355 73
12,833 92
Decrease.....
\$2,538 83

Hudson River is firm. A considerable amount of Stonington was thrown on the market and the quotations fell off. Boston was dull. Niagara appears to have touched bottom for the present; the market opened at 36 and closed at 36. The arrival of the Northern Light in advance of the Aspinwall boat may have a favorable effect upon this stock. The Coal Stocks were generally firm. Cumberland was sustained at 66. Some bear sales of Parker Vein were made at the morning Board at 66 1/2, seller's option, but at the Second Board 70 was bid regular and 69 seller's option, with no stock offered. There was an error in the statement in regard to the purchase of débâcle bonds in Baltimore by Mr. O. P. Jewett. The purchase was not for his individual account, and not for the Company, although the Company will have the use of the funds. Land Companies were firm. Cary was in demand 13; Morris was 21. In premium stocks there was not much done, but full prices were bid. The sales of Bonds were moderate and prices unchanged.

In Exchange there is not much done, and the market remains heavy at 8 1/2 for fair to first-class bills.

Freights are rather dull, with more room of freighting. To Liverpool about 10,000 bushels Corn on private terms; 1,000 bushels. Flour at 3 1/2, 1,000 bushels. Raisins at 3 1/2; Cotton at 4; 500 or 600 tierces of Saff. To London there is not much doing.

Money is still in active demand, but there is no stringency. Rates are 6 1/2 per cent on call and first-class paper. The reports of the few Banks which have been published show a moderate contraction of loans since the last report, and an increase in the other departments.

The open navigation of the present winter has enabled the Lake boats to run much later than usual, to the 20th December, and consequently the earnings of the Michigan Central Road for December show a considerable gain as compared with December, 1851. The figures are:
December, 1852.....
\$64,491 49
December, 1851.....
55,602 49
Increase.....
\$8,889 30

The receipts of December, 1851, were \$66,500 25.

The receipts at the Sub-Treasury were \$16,137; payment, \$53,002; balance, \$2,538 83.

Mr. Edward Whitehouse, for the last twenty-five years connected with the highly respectable house of Cammann, Whitehouse & Co., retires from business and will spend the ensuing summer in Europe. Mr. Whitehouse has accumulated a handsome competency by unremitting attention to business, aided by his inflexible integrity of character. The business of the house will be continued with ample means by the remaining partners under the title of Cammann & Co.

The City Controller has given notice that the interest on City Stocks due 1st February will be paid by F. W. Edmonds, City Chamberlain, at the Mechanics' Bank, No. 33 Wall-st.

Thompson's Bank Note Reporter says:

The impression is freely given by members of Congress that there will be nothing done with the public lands this session. This belief strengthens the market, and we quote:

Buys..... Selling.....
160 acre Warrants..... \$147 \$150
60 acre Warrants..... 74 76
40 acre Warrants..... 31 38

The Atlantic steamship of to-day carries out no specie, and the exports of the week will be seen by the annexed return from the Custom House:

Ship St. Denis, Havre, American gold..... \$45,000
Steamer Petrel, St. Thomas, American gold..... 1,737
Steamer Petrel, St. Thomas, French silver..... 8,303

Total Jan. 1 to Dec. 8, 1852..... \$55,046

The imports of miscellaneous goods is large for the week. Of Dry Goods, although very large, they are yet about a quarter of a million less than for the same week last year.

Imports (other than Dry Goods) at the Port of New York, for the week ending and including Friday Jan. 7, 1853.

Imports..... \$6,000,000
Exports..... 4,000,000
Trade balance..... 2,000,000

The imports of Miscellaneous goods is large for the week. Of Dry Goods, although very large, they are yet about a quarter of a million less than for the same week last year.
